Long a popular herb in Europe, arugula is gaining popularity in the United States as a gourmet salad herb. People either love arugula or hate it for it has a pungent aroma and a peppery taste. Although it is used mainly as a salad herb adventurous chefs and cooks use it in everything from sauces to stir-fry. Fast growing. Very popular as a micro-green!

<b>Beans</b>	<b>Bush Blue Lake 274, Green</b>	<b>Seed Category</b>	<b>Standard</b>	<b>Seeds in Packet</b>	<b>70</b>	<b>2024 1604</b>

Green bush snap bean. Bushes grow 15-18 inches tall. Delicious, plump, round, tender dark green bean. Pods 5-7 inches long, fully round to crease-backed, with slow developing white seeds so pods do not appear lumpy. Excellent flavor and texture. Free of strings and low in fibers. Good fresh, canned, and especially good for freezing. Heavy producer over a long season if the pods are kept picked.

<b>Beans</b>	<b>Goldmine, Wax</b>	<b>Seed Category</b>	<b>Standard</b>	<b>Seeds in Packet</b>	<b>50</b>	<b>2024 1608</b>
Hyb/Heir <input type="checkbox"/> OP	Cycle	Light Sun/Part Shade	Multiple Bloom <input type="checkbox"/>	Johnnys Easy Choice <input type="checkbox"/>	Suitable for Containers	
Reseeds <input type="checkbox"/>	Maturity Days 53	Lettuce	Pollenless <input type="checkbox"/>	AAS Winner <input type="checkbox"/>	UofM Master Gardener	

Gold Mine is a highly attractive wax bean that performs well for frozen and canned processing. It has long, slim yellow pods. Resistance: halo blight.

<b>Beans</b>	<b>Provider</b>	<b>Seed Category</b>	<b>Standard</b>	<b>Seeds in Packet</b>	<b>70</b>	<b>2024 1655</b>
Hyb/Heir <input type="checkbox"/> HEIR	Cycle	Light Sun/Part Shade	Multiple Bloom <input type="checkbox"/>	Johnnys Easy Choice <input checked="" type="checkbox"/>	Suitable for Containers

High quality, round, straight beans 5-8" long are produced in abundance on 18" tall plants. Does well growing in a range of conditions.

<b>Beans</b>	<b>Royal Burgundy, Purple</b>	<b>Seed Category</b>	<b>Standard</b>	<b>Seeds in Packet</b>	<b>70</b>	<b>2024 1623</b>
Hyb/Heir <input type="checkbox"/> HEIR	Cycle	Light Sun/Part Shade	Multiple Bloom <input type="checkbox"/>	Johnnys Easy Choice <input type="checkbox"/>	Suitable for Containers	
Reseeds <input type="checkbox"/>	Maturity Days 52	Lettuce	Pollenless <input type="checkbox"/>	AAS Winner <input type="checkbox"/>	UofM Master Gardener	

Blanched or cooked beans will turn green, but raw beans retain their striking burgundy color after picking. Crisp and tasty, this variety does well in cool soils and is resistant to Mosaic virus.

<b>Beets</b>	<b>Beet Touchstone Gold</b>	<b>Seed Category</b>	<b>Hand-Picked</b>	<b>Seeds in Packet</b>	<b>70</b>	<b>2024 1730</b>
Hyb/Heir <input type="checkbox"/> OP	Cycle	Light Sun/Part Shade	Multiple Bloom <input type="checkbox"/>	Johnnys Easy Choice <input type="checkbox"/>	Suitable for Containers	
Reseeds <input type="checkbox"/>	Maturity Days 55	Lettuce	Pollenless <input type="checkbox"/>	AAS Winner <input type="checkbox"/>	UofM Master Gardener	

A refined and reliable golden beet with long attractive green tops, Touchstone takes the guesswork out of growing golden beets with its dependable germination and uniformly round roots. Like other golden beets, retains its color when cooked and has the sweet flavor prized by aficionados. Performs well even when overcrowded.

Varieties listed by Hyb/Heir: HEIR=Heirloom, F-1=Filial 1 Hybrid, OP=Open Pollinated. See our website: <https://minnesotafreshfarm.com/plantsforsale.html> for additional information on awards.

<b>Beets</b>	<b>Burpee's Golden Beets</b>	<b>Seed Category</b>	<b>Standard</b>	<b>Seeds in Packet</b>	<b>70</b>	<b>2024 1624</b>

Prolific roots are nearly globe shaped, 2.5 to 3 inches in diameter with smooth skin. Deep blood red color. Solid good keeping root. Dark green tops with tinges of red. 12-15" tall. Resistant to Downy Mildew.

<b>Cantaloupe</b>	<b>Minnesota Midget</b>	<b>Seed Category</b>	<b>Standard</b>	<b>Seeds in Packet</b>	<b>12</b>	<b>2024 1654</b>	
Hyb/Heir <input type="checkbox"/> HEIR	Cycle	Light Sun	Multiple Bloom <input type="checkbox"/>	Johnnys Easy Choice <input type="checkbox"/>	Suitable for Containers Yes		
Reseeds <input type="checkbox"/>	Maturity Days 75	Lettuce	Pollenless <input type="checkbox"/>	AAS Winner <input type="checkbox"/>	UofM Master Gardener		

This ever-so-sweet melon arrives early, making it a good choice for northern gardens with short seasons. Bred at the University of Minnesota in the 1940s, the small 4" melon's thick, meaty, golden yellow flesh boasts excellent flavor and a high sugar content. Perfect for smaller gardens, the compact vines grow to only 3' and produce prolifically.

<b>Carrots</b>	<b>Deep Purple</b>	<b>Seed Category</b>	<b>Standard</b>	<b>Seeds in Packet</b>	<b>80</b>	<b>2024 1627</b>

Very uniform with strong tops. Yellowbunch is a completely yellow Imperator-type with attractive, 7 1/2–8" long roots.

**Chard**      **Northern Lights Mix**      **Seed Category**      **Standard**      **Seeds in Packet**      **25**      **2024 1603**

Hyb/Heir OP      Cycle      Light Sun/Part Shade      Multiple Bloom       Johnnys Easy Choice       Suitable for Containers      Yes  
 Reseeds  Maturity Days 55      Lettuce      Pollenless       AAS Winner       UofM Master Gardener

Northern Lights Mix contains some of the most intense colors of chard ever seen. The 21-26" plants produce eye-appealing stalk colors of deep gold, snow white, deep red and magenta, all with shiny, medium-green colored leaves. The leaf textures range from smooth to lightly crumpled at the young stage, to lightly crumpled to crumpled at the mature stage. The stalks are broad, very tender and fleshy, even at full maturity.

**Collards**      **Hi-Crop**      **Seed Category**      **Standard**      **Seeds in Packet**      **25**      **2024 1631**

Reminiscent of fall leaves. Tall, extremely vigorous plants produce bold, beautiful flowers up to 8" across. Bright yellow, bronze, and purple shades with some bicolors. Good choice for farmscaping, sunflower mazes, and tall border rows. Bears pollen; good for bee forage. Stem length is 15-44". Branching; produces many long stems. Flower buds can be fried and the petals used as a garnish in salads and desserts; the flavor is bittersweet.

An ideal cut flower hybrids with golden-yellow petals and dark brown disks, completely devoid of pollen. The dorit petals are slightly deeper yellow. The inflorescence's size is relatively large and it partly dictated by the plant population and by the amount of water the plant absorbed. Cold resistant, can be planted two weeks earlier than most sunflowers.

Red onions are ubiquitous on salads, sandwiches and other raw preparations partly because of their appealing deep-purple color. They can have a really peppery, spicy flavor to them. Red onions pair well with equally strong-flavored greens such as kale or arugula. Good for roasting, grilling and pickling.

White onions it the type of onion you'll usually find in prepared salads (potato and macaroni salads, for instance) and traditionally in Mexican cuisine. White onions can be strong but they tend to have less aftertaste. Their slightly sweet taste adds to fresh salsas, guacamole, ceviche and tacos. They're also commonly served up in barbecue establishments with a plate of meat, pickle and sides.

This AAS Award Winner is a delicious, single-serving mini butternut. Unusually rich and sweet flavor due to higher sugar content than other butternut types. Small 1-2 lb. fruits mature early and can be consumed at maturity. Limited storage, best up to 3 months after maturity. Short, space-saving vines with high resistance to powdery mildew. Avg. yield: 3-4 fruits/plant.

Stunning 1–1½ lb ivory-colored green-striped fruits shaped like miniature pumpkins. New York Times food writer Regina Schrambling called them the “avocados of squash” for their inherent buttery richness and sweet-tangy taste. To experience its sweet dry and memorably rich deep orange flesh, make sure your Dumpling is ripe.
